

EMAD TRADE HOUSE

way ahead *Naturally*

50

YEARS OF SERVICE TO THE
PHARMA & FOOD INDUSTRY

WWW.EMAD-UAE.COM

About Us

With over 50 years of expertise, Emad Trade House Dubai stands as a cornerstone of industrial supply across the MENA and South Asia regions. We have built our reputation on the success of more than 200 valued customers, providing seamless order facilitation that serves as the heartbeat of our operations.

Muhammad Shabbir
(Founder & CEO)

"I would like to thank all our business partners for their trust in Emad Trade House. I am delighted for another successful year, putting us in a very strong position, which is a testament to the dedication and talent of all our employees and our ability to consistently conduct our business activities at a very high standard."

Emad Shabbir
(Managing Director)

"Customers are at the heart of our strategy at Emad Trade House, the focus of our vision, and one of our core values. Whether they are large companies or small businesses, we serve them all with equal enthusiasm. Our solutions deliver the agility today's manufacturers need to cater to the complex needs of the pharmaceutical industry."

Markets Served

WE PROUDLY SERVE CUSTOMERS ACROSS

UAE • Saudi Arabia • Oman • Qatar • Kuwait • Bahrain • Egypt • Sudan
Algeria • Jordan • Iraq • Pakistan • Bangladesh

1,000+ Products Offered Across APIs, Excipients,
Packaging & Processing Equipment.

Our Warehouse

Just-In-Time
Delivery

Our certified warehousing facility in Jebel Ali Free Zone maintains regular inventory and buffer stock to ensure uninterrupted supply on a Just-in-Time basis.

- *Over 600 Euro Pallet spaces*
- *Freshly Produced Goods Direct from Bona fide Manufacturers*
- *Accredited Logistics Team*
- *ISO Certified*

WHITE REFINED SUGAR FOR PHARMA & FOOD

- ICUMSA 45 & ICUMSA 20
- ICING SUGAR
- GRANULATED SUGAR
- BROWN SUGAR

50kg/
1000kg

25kg

CASTER SUGAR

- ICUMSA 35
- FINE GRANULES
- FAST DISSOLVING
- MEETS INTERNATIONAL QUALITY STANDARDS
- SHELF LIFE : 5 YEARS

SUGAR

FOOD INGREDIENTS FOR DAIRY, BEVERAGE & BAKERY APPLICATIONS

FRUIT INGREDIENTS

- **Fruit Bases & Concentrates:** fruit bases, purées, and concentrates.

DAIRY & FUNCTIONAL PROTEINS

- **Milk Proteins & Caseinates:** milk proteins, whey derivatives, and sodium caseinates.
- **Dairy Performance Systems:** whipping agents, fat powders, dairy blends, lactose, and co-processed systems.

BAKERY & SAVOURY SOLUTIONS

- **Phosphate Systems:** TCP, DCP, STPP, SAPP and DSP.
- **Dough & Moisture Control:** bake enzymes, phosphates, leavening agents, and bread improvers for dough conditioning and moisture retention in processed foods.

TEXTURISERS & STABILISERS

- **Starches:** native & pre-gelatinised.
- **Hydrocolloids & Gums:** xanthan gum, gellan gum, agar agar, carrageenan, and pectin.

NUTRITIONAL FORTIFICATION

- **Mineral Salts:** calcium, zinc, iron, magnesium, etc.
- **Vitamin premixes:** energy drink premix, vision development premix, immunity boosting premix, bone health premix, etc.

FLAVOURS, COLOURS & SENSORY SYSTEMS

- **Flavour & Seasoning Systems:** custom flavours, seasonings, and cocoa derivatives.
- **Colour Systems:** natural, synthetic, and caramel colours.

SWEETENERS & CARBOHYDRATES

- **Polyols & Carbohydrates:** maltodextrin, sorbitol, mannitol, and dextrose.

PRESERVATION & ACIDITY CONTROL

- **Acidity & pH Regulators:** lactates, lactic acid, and citric acid.

PHARMACEUTICAL INGREDIENTS & FUNCTIONAL EXCIPIENTS

APIs & INTERMEDIATES

- **Anti-infectives:** amoxicillin and potassium clavulanate.
- **Cephalosporins:** ceftriaxone sodium, ceftazidime pentahydrate, cefepime arginine, cefazolin sodium, cefotaxime sodium, and ceftazidime/avibactam.
- **Analgesics & Anti-Diabetics:** paracetamol, ibuprofen and metformin.
- **Intermediates:** 6-APA, 7-ACA, and para-aminophenol.
- **Expanded APIs:** cardiovascular, CNS and respiratory therapies.

PARENTERAL & INJECTABLE COMPONENTS

- **Electrolytes:** sodium, potassium and magnesium salts.
- **IV Carbohydrates:** IV-grade Dextrose.
- **Buffers:** sodium lactate and lactic acid.

LIPIDS & FUNCTIONAL BASES

- **Solubility & Absorption Enhancers:** lipid excipients and bioavailability enhancers.
- **Surfactants & Emulsifiers:** polysorbates, waxes, and other emulsifying agents.
- **Fatty Acids & Humectants:** Stearic acid and glycerine.

EXCIPIENTS & FUNCTIONAL SYSTEMS

- **Lactose Excipients:** pharmaceutical lactose for wet granulation, direct compression, and dry powder inhalation (DPI).
- **Cellulose Systems:** Microcrystalline Cellulose (MCC), Croscarmellose Sodium (CCS), Sodium Starch Glycolate (SSG).
- **Cellulose Polymers:** Hydroxypropyl Methylcellulose (HPMC) and related cellulose ethers.
- **Functional Starches:** modified and pre-gelatinised starches.

CO-PROCESSED EXCIPIENTS

- **Cellulose–Lactose Blends:** Cellactose, MicroceLac.
- **Cellulose–Disintegrant Blends:** Neocel.
- **Starch–Lactose Blends:** Starlac.

COATING & MICROENCAPSULATION

- **Film Coating Systems:** materials for immediate, delayed & sustained-release dosage forms.
- **Micro-encapsulation:** precision-coated ingredients, including Tartaric acid and Microcrystalline Cellulose.
- **Gelling & Thickening Agents:** agar agar powder.

SWEETENERS & TASTE MASKING

- **Polyols & Sugars:** sorbitol, mannitol, sodium saccharin, and dextrose.

PERSONAL CARE, ORAL CARE & COSMETIC INGREDIENTS

CORE FUNCTIONAL INGREDIENTS

- **Humectants, Emollients & Bases:** glycerine, and stearic acid.
- **Thickeners & Viscosity Modifiers:** xanthan gum, agar agar powder, and gellan gum (pulp suspension).
- **Stabilizers & Texture Modifiers:** carrageenan, pectin, maize starch, and modified & pre-gelatinised starches.

ORAL CARE SOLUTIONS

- **Sweeteners:** sorbitol (liquid & powder), mannitol, and sodium saccharin.
- **Oral Care Minerals & Buffers:** Phosphates (TCP, DCP, STPP, SAPP & DSP).
- **Colourants:** natural and synthetic colours.

ADVANCED COSMETIC INGREDIENTS

- **Skin Conditioning & Exfoliation:** lactic acid, and lactate derivatives (calcium, sodium & potassium lactates).
- **Emulsifiers & Surfactants:** specialty waxes, mild emulsifying systems functional surfactants.
- **Skin & Hair Care Actives:** botanical extracts, peptides & advanced actives.
- **Sensory Modifiers & Sustainable Lipids:** specialty esters, functional lipids & algae-derived emollients.
- **Natural Preservation Boosters:** fermented actives & antimicrobial boosters.

PACKAGING SOLUTIONS FOR THE FOOD & DAIRY INDUSTRY

FLEXIBLE PACKAGING & BARRIER SOLUTIONS

- **Chocolate & Confectionery Packaging:** foil twist films, flow wrap films and aluminium composites.
- **Dairy Lidding & Wrapper Films:** barrier sealing systems including peel-push and tear-open foils.
- **Coffee & Beverage Portion Packaging:** coffee capsules, die-cut lids etc.
- **Food Films:** PVC and coated PVC films with strong formability and reliable product protection.
- **Retort & Vacuum Packaging:** high-performance retort pouches and vacuum bags.

CLOSURE SYSTEMS & SEALING TECHNOLOGIES

- **Metal Closures:** ROPP, crown, and twist-off closures.
- **Plastic Closures & Dispensing Systems:** sports caps, flip-top caps, pumps & CRC/tamper-evident closures.
- **Induction Sealing Solutions:** Wad systems & liners.

TUBES & RIGID PACKAGING FORMATS

- **Tube Packaging:** aluminium and plastic tubes.
- **Rigid Plastic Packaging :** tubs, jars and trays.
- **Moulded Glass Containers:** jars and bottles.

PHARMACEUTICAL PACKAGING & DRUG DELIVERY SYSTEMS

ORAL SOLID DOSE (OSD) PACKAGING

- **Capsules:** hard gelatin and HPMC capsules.
- **Blister Packaging:** lidding foils, Alu-Alu cold-form foil, flow-wrap films, desiccated ALU-ALU cold forming foils/lidding, PVC mono & duplex PVC/PVDC films, triplex films, high barrier/multilayer films including ACLAR, strip packs, sachet/stick packs in various structures, desiccants & fillers, medical grade laminates.
- **Bottles & Caps:** HDPE pill jars, effervescent tubes, CRC & tamper-evident closures.

PARENTERAL & INJECTABLE PACKAGING SYSTEMS

- **Tubular Glass Containers:** vials, ampoules, pre-fillable syringes and cartridges (*Bulk & Ready to Use*).
- **Moulded Glass Containers:** infusion / injectable vials, and dropper / syrup bottles (*USP Type I, II, III*).
- **Rubber Stoppers/Seals:** injectable rubber stoppers, cartridge & syringe plungers, Flip-Off seals, and specialised Fluoropolymer laminated stoppers (*Ready-to-use / ready-to-sterilise*).
- **Labels:** syringe needle-trap, tamper evident, auto-injector, hanger, and booklet & labels.
- **IV Solutions:** EURO caps, semi-rigid containers, infusion containers, PVC/Non-PVC Films for IV bags / pre-formed IV Bags, ports, tubing, and needles.
- **Drug Transfer Devices:** vial / bag adapters (Vial to Bag, Mix2Vial, & Mixject).
- **Injectable Pens:** insulin pens, disposable/pre-filled pens, refillable pens, auto-injectors, smart / connected pens and single use / multi-dose pens.

SEMI-SOLID DOSAGE FORM

- **Tubes:** aluminium collapsible, plastic extruded, plastic/aluminium laminated and Polyfoil tubes.
- **Jars:** plastic / glass jars.
- **Actuator & Pumps:** fine-mist sprayers, foam pumps, trigger sprays, pump and actuators.

LIQUID DOSAGE FORM (SOLUTIONS, SUSPENSIONS & EMULSIONS)

- **Bottles:** glass bottles and dropper pipettes.
- **Closures & Pumps:** dosing caps, CRC caps, tamper-evident caps, screw caps, actuator pumps, flip-top closures, and dosing syringes.
- **PET packaging:** PET bottles and jars.

INHALATION & OPHTHALMICS

- **Metered Dose Inhalers (MDIs):** pumps, actuators, aluminium aerosol cans).
- **Dry Powder Inhalers (DPIs):** DPI devices (UniDose / multi-dose), gelatin & HPMC capsules for inhalation.
- **Nasal:** actuators, pumps, over caps & HDPE bottles.
- **Ophthalmics:** preservative-free eye dropper systems, and eye dropper bottles (HDPE / LDPE).

PERSONAL CARE & COSMETIC PACKAGING SOLUTIONS

BEAUTY WRAPPERS & SOAP PACKAGING

- **Flexible Beauty Wrappers:** high-aesthetic flexible packaging solutions.
- **Soap & Fragrance Protection:** moisture barriers with aroma protection.

SACHETS & UNIT-DOSE FORMATS

- **Single-use formats:** formats for samples, creams, bath salts, and liquids.
- **Barrier Sachet Materials:** sachet foil, PVC and coated PVC for barrier performance.

TUBE PACKAGING

- **Cosmetic & Dermal Tubes:** aluminium & plastic tubes for creams, gels, ointments and dermal products.
- **Laminate Tube Structures:** multi-layer ABL, PBL and COEX laminate tubes.

DISPENSING & AEROSOL SYSTEMS

- **Fine Mist & Aerosol Components:** valves / actuators for perfumes, fine mists, and aerosol systems.
- **Aerosol Packaging:** canisters and valves for aerosol applications.

LOTION & SERUM PUMPS

- **Accurate Dosing Systems:** dispensing pumps and actuators for accurate dosing of lotions, serums, and liquid cosmetics.

RIGID PACKAGING

- **Premium Containers:** glass & plastic containers for premium fragrances & skincare.

SAFETY & TAMPER PROTECTION

- **Protective Closures:** child-resistant (CRC) and tamper-evident closures to maintain product integrity and consumer safety.

FOOD, BEVERAGE, DAIRY PROCESSING & PACKAGING SOLUTIONS

FORMULATION & PROCESSING

- Advanced pasteurisation and sanitary homogenisation lines for dairy, beverage, and liquid food applications.
- Precision mixing and homogenisation equipment for consistent texture, stability, and product quality.
- Efficient blending and mineral fortification systems for nutritional and functional food products.

FILLING & DISPENSING

- High-precision liquid filling and dosing solutions for bottles, pouches, cups, and other food-grade formats.
- Flow control systems maintaining consistent throughput, dosing accuracy, and production efficiency.

PACKAGING SYSTEMS

- FFS machinery for flexible food, beverage, and dairy packaging formats.
- Tube filling, sealing, and packing lines for viscous, semi-liquid, and portioned products.

INSPECTION & FINISHING

- Safe metal detection solutions for product inspection and contamination control.
- Multi-head, high-speed, accurate weighing systems for portion control and packing consistency.
- Labelling machines for precise application across bottles, tubs, jars, trays, and retail packs.

CAPPING SOLUTIONS

- ROPP, crown/twist-off, and sports cap solutions for beverage and food container formats.

END-OF-LINE AUTOMATION

- Flow wrapping systems for protective, high-speed secondary packaging.
- Integrated cartoning and case-packing lines for retail-ready and transport-ready formats.
- Palletising solutions enabling efficient stacking, handling, storage, and distribution.

PHARMACEUTICAL MANUFACTURING & PACKAGING SOLUTIONS

FACILITY ENGINEERING & DIGITAL SYSTEMS

- Turnkey facility layouts for ISO Class 7/8 cleanrooms.
- WFI, Purified Water, and Clean Steam system installation.
- Integrated MES and Electronic Batch Record systems.
- Paperless operations with full GAMP 5 data integrity.

PROCESSING & SOLID DOSE MANUFACTURING

- IBCs, lifting columns, and bin blenders for dust-free transfer and batch homogenisation.
- High-shear mixers, fluid-bed processors, and roller compactors for dry/wet granulation.
- High-speed rotary tablet presses and precision capsule filling machines.
- Integrated tablet dedusters and high-sensitivity metal detectors.
- Mixing, compounding, and homogenisation systems for emulsions, suspensions, creams, and ointments, with integrated CIP/SIP vessels.

ASEPTIC PROCESSING, CONTAINMENT & INSPECTION

- High-containment isolators and RABS for sterile injectables and potent compounds.
- Automated denesters and debagging systems for sterile RTU transfer of nested syringes, vials, and cartridges into Grade A zones.
- Washing/sterilisation tunnels for bulk vials and ampoules, plus freeze-drying systems for biologics.
- Precision filling lines with stoppering and low-particle capping/sealing.
- Automated plunger rod insertion, finger flange addition, and safety device assembly.
- Automated visual inspection for particle detection and CCIT.

PRIMARY & FLEXIBLE PACKAGING

- High-speed blistering and cartoning for Alu-Alu and PVC/PVDC foil formats.
- Hermetic flow wrapping for moisture-barrier packaging of medical devices and solid doses.
- BFS systems for sterile liquids and IV bags; horizontal/vertical FFS for sachets, stick packs, and pouches.
- Automated filling and sealing for aluminium, plastic and laminate tubes.

INLINE PRINTING & LATE-STAGE CUSTOMISATION

- On-demand digital and flexo printing systems.
- Direct-to-foil blister printing, labels and cartons.
- Lean inventory support through late-stage customisation.

SECONDARY & END-OF-LINE AUTOMATION

- High-speed labelling for front/back, wrap-around, tamper-evident and booklet/outsert application on bottles, vials, pens, and cartons.
- Automated film wrapping, banding, case packing, and palletising with DSCSA/EU FMD-compliant serialisation, aggregation and parent-child tracking.
- Fully validated systems supporting FDA, EMA and cGMP compliance from installation to routine production.

PERSONAL/ORAL CARE PROCESSING & PACKAGING SOLUTIONS

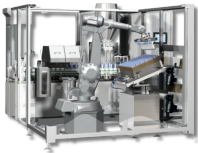

FORMULATION & PROCESSING

- Vacuum mixing and emulsification systems for creams, lotions, gels, ointments, and emulsions.
- Ingredient blending, dispersion, and viscosity control solutions for consistent product texture.

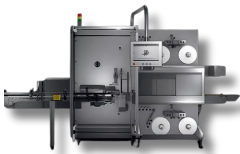

FILLING & ASSEMBLY

- Perfume and cosmetic liquid filling lines for bottles, jars, tubes, and containers.
- Integration systems for caps, pumps, actuators, sprays, closures, and dispensing components.

ORAL CARE MANUFACTURING

- Toothpaste and gel processing equipment for mixing, deaeration, homogenisation, and transfer.
- Tube filling and cartoning lines for toothpaste, gels, creams, and oral care products.

PACKAGING & AUTOMATION

- Cartoning systems for tubes, bottles, sachets, unit packs, and retail-ready formats.
- FFS and unit-dose packaging lines for sachets, samples, travel-size packs, and single-use formats.
- End-of-line automation including case packing, film wrapping, banding, palletising, and labelling systems for downstream logistics.

R&D & PILOT SYSTEMS

- Benchtop filling and development equipment for R&D, pilot trials, and small-batch production.
